

In the Claims:

Please cancel Claims 1-10, without prejudice; amend Claim 11; and add new Claims 12-13 as indicated below. The status of all claims is as follows:

1. - 10. (Cancelled)

11. (Currently Amended) The notebook type information processing apparatus according to claim ~~6~~, 12, wherein a portion of said apparatus body including at least ~~one of said first side portion and said second side~~ portion is made as a detachably attachable component.

12. (New) An electronic apparatus comprising:
a body having a circuit board; and
a display device connected through a connecting portion to said body in an open position or in a closed position with respect to said body; wherein
said body has two side surfaces which are not parallel to a central axis of said connecting portion;
said two side surfaces having:
a first portion having a first distance between said two side surfaces of said body at the connecting portion of said body and said display device, said first distance being smaller than a width of said display device; and

a second portion having a second distance between said two side surfaces, said second distance being larger than said first distance, and being approximately equal to the width of said display device;

said second portion being a part of said body at a farther position from said connecting portion than said first portion.

13. (New) The electronic apparatus as claimed in claim 12, wherein said second portion is provided at a position near the farthestmost position from said connecting portion.
